

Get students fired up about SCIENCE.

Real scientists explaining SCIENCE
in an intuitive way.

SCIENCE electrifies!!

SANTA CRUZ INSTITUTE FOR PARTICLE PHYSICS

PRESENTS

THE ELECTRIFYING TESLA COIL DEMONSTRATION

The Santa Cruz Institute for Particle Physics' Outreach Program gets students electrified about learning physics using a Tesla Coil which generates dazzling electric arcs about 5 feet (1.5 meters) in length. You can have a Tesla Coil Demonstration at **your** school to get you students charged up about learning physics.

Santa Cruz Institute for Particle Physics
Outreach Program
