Books

Edited Books

Chapters in Books

2. Supersymmetry, Part I (Theory), B.C. Allanach and H.E. Haber, in *Review of Particle Physics*, P.A. Zyla *et al.* [Particle Data Group], *Progress of Theoretical and Experimental Physics* 2020, 083C01 (2020).

Peer-reviewed Articles in Professional Journals

2. Exceptional regions of the 2HDM parameter space, H.E. Haber and J.P. Silva, Phys. Rev. D103, 115012 (2021).

29. Supersymmetric Monojets at the Large Hadron Collider, B.C. Allanach, S. Grab and H.E. Haber, JHEP 1101, 138 (2011) [Erratum: 1107, 087 (2011); 1109, 027 (2011)].

61. $Z^0 \rightarrow A^0A^0\nu\bar{\nu}$ and $e^+e^- \rightarrow A^0A^0Z$ in Two Higgs Doublet Models, H.E. Haber and Y. Nir, *Phys. Lett.* **B306**, 327 (1993).

72. $H^\pm \to W^\pm \gamma$ and $H^\pm \to W^\pm Z$ in Two Higgs Doublet Models: Large Fermion Mass Limit, M. Capdequi Peyranere, H.E. Haber and P. Irulegui, Phys. Rev. D44, 191 (1991).

73. Heavy Fermion Effects in $e^+e^- \to ZH$ and $Z \to H\nu\bar{\nu}$, S. Dawson and H.E. Haber, Phys. Rev. D44, 53 (1991).

100. Signatures of Heavy Neutrino Production at the CERN Collider, H.E. Haber and M.H. Reno, Phys. Rev. D34, 2732 (1986).

107. Implications of a Higgs Interpretation of the $\zeta(8.3)$, H.E. Haber and G.L. Kane, Nucl. Phys. B250, 716 (1985).

115. Some Tests for Whether a Narrow Neutral Resonance can be a Higgs Particle, H.E. Haber and G.L. Kane, Phys. Lett. 135B, 196 (1984).

Articles in Other Scientific Publications

**Contributions to Scientific Reports**

**Book Reviews**

**Articles in Conference and Workshop Proceedings**

47. Vector Leptoquark Production at Hadron Colliders, J.L. Hewett, T.G. Rizzo, S. Pakvasa, H.E. Haber and A. Pomarol, in Proceedings of the Workshop on Physics at Current

54. Expected Limits on Supersymmetric Parameters at LEP-200, J.F. Gunion and H.E. Haber, in ibid., pp. 206–207.

70. Techniques for Finding Supersymmetry at the SSC, R.M. Barnett *et al.*, in *Proceedings of the Workshop on Experiments, Detectors, and Experimental Areas for the Supercollider*,

81. What if the Higgsino is the Lightest Supersymmetric Particle?, H.E. Haber, in the *Proceedings of the 13th SLAC Summer Institute on Particle Physics*, Stanford, CA, July 29–August 9, 1985, edited by Eileen C. Brennan (SLAC Report No. 296) p. 143.

89. $\tau$-Decay Spectra at the SSC, J.F. Gunion and H.E. Haber, *ibid.*, p. 150.

95. Are Supersymmetry and Grand Unification Compatible? H.E. Haber, in *Quarks, Leptons and Supersymmetry*, edited by J. Tran Thanh Van (Editions Frontieres, France, 1982).
