The Santa Cruz Institute for Particle Physics (SCIPP) is seeking applications for a Postgraduate Doctoral position in experimental high-energy astrophysics. SCIPP has played a major role in the development and fabrication of the silicon-strip tracker of the GLAST instrument, as well as the instrument simulation and reconstruction software. GLAST is a second-generation orbiting gamma-ray pair-conversion telescope that promises to deliver exciting advances in observational high-energy astrophysics following its launch scheduled for late 2007. Scientific interests within the group include source identification and detection, diffuse emission, dark matter searches, pulsar searches, and AGN. The successful candidate will join the on-going effort to calibrate and understand the detector performance and participate in data analysis in line with the group's scientific interests. SCIPP maintains a diverse and active research program in both accelerator-and non accelerator-based particle physics and astrophysics.

Rank: Postdoctoral Scholar
Salary : Commensurate with experience and qualifications and contingent upon availability of funding, annual range between $41136 -$45684
Minimum Qualifications: Ph.D. or equivalent in experimental particle physics or astrophysics
Position available: January 1, 2007
Apply to: Please send a vitae and three letters of reference to: Ms. Georgia Hamel, Santa Cruz Institute for Particle Physics, University of California Santa Cruz, Santa Cruz, CA 95064, or georgia@scipp.ucsc.edu; email applications are preferred
Closing date: December 31, 2006

WOMEN AND MINORITIES ARE ENCOURAGED TO APPLY.

UCSC IS AN AFFIRMATIVE ACTION/EQUAL EMPLOYMENT OPPORTUNITY EMPLOYER.

Under Federal law, the University of California may employ only individuals who are legally able to work in the United States as established by providing documents as specified in the Immigration Reform and Control Act of 1986. The University of California, Santa Cruz, in accordance with applicable Federal and State law and University policy, prohibits discrimination against or harassment of any person employed by or seeking employment with the University on the basis of race, color, national origin, religion, sex, physical or mental disability, medical condition (cancer-related), ancestry, marital status, or age. The University of California also prohibits unlawful discrimination on the basis of sexual orientation, status as a Vietnam-era veteran or special disabled veteran, or, with the limits imposed by law or University policy, on the basis of citizenship. In conformance with applicable law and University policy, the University of California is an affirmative action/equal opportunity employer. The University undertakes affirmative action to assure equal employment opportunity for underutilized minorities and women, for persons with disabilities, and for Vietnam-era veterans and special disabled veterans. Inquiries regarding the University’s equal employment opportunity policies may be directed to: Affirmative Action Office, University of California, Santa Cruz, CA (831) 459-2349.
